Natural Size. Food worms and water insects. Winter plumage. Eggs 4 or 5.

*Scolopax Gallinula*, (Linn.)

JACK SNIP.

Office of the Secretary  
of the Navy

Washington, D.C.  
June 10, 1864

76 0.

My dear Sir,  
I have the honor to acknowledge the receipt of your letter of the 6th inst. in relation to the matter of the purchase of the land for the establishment of a Naval Academy at Annapolis, Maryland. I am sorry to hear that the land is not yet secured, but I am confident that the Government will soon be able to acquire the same. I have directed the proper authorities to take the necessary steps to secure the land as soon as possible.

Very respectfully,  
John D. Long
